My Happy School Life

I have a happy school life in Wong Yee Jar Jat. I like this school very much.

When I was in Primary one, I was very scared of this school because it was my first time to go to this school. Now, I am in Primary five, I like this school very much and I am not scared anymore.

I have many friends in my class. My best friend is Oscar. He is cheerful and nice. He has short hair and big eyes. I like playing and chatting with him during recess.

In my school life, I have **had** some happy moments and unhappy moments. But I **have learned** to be brave to face my unhappiness. Therefore, I have a good school life in this school.
